

PLACE BESIDE THE CHARM TRAYS

Charm Bar Guest Instructions

Make a bracelet or necklace that feels like you. Take your time arranging your charms before you attach them.

1 Choose your chain

Pick a bracelet or necklace from the options provided. Try the length first; ask the helper if it needs adjusting.

2 Pick your charms

Choose the number included in your party package. Lay them beside your chain so you can compare colours, spacing, and the order.

3 Open a jump ring

Hold one side of the ring with one pair of pliers and the other side with a second pair. Gently twist one side forward and the other backward. Do not pull the ends apart sideways.

4 Attach your charm

Slide the charm loop and the chosen chain link onto the open ring. Twist the ends back together until they meet neatly, with no visible gap. Ask for help if the ring is stiff or does not close evenly.

5 Check your finished piece

Repeat for the remaining charms. Check each ring and the clasp, then try on your piece. Put it in your pouch to take home.

Keep your jewelry looking lovely

Wipe gently with a soft cloth and store dry. Remove before swimming or showering and keep away from perfume and cleaning products. Follow any material specific care instructions supplied with your kit.

Small parts are not suitable for children under 3. Children need adult supervision. Keep charms away from mouths; let the adult helper handle cutters and any sharp or damaged pieces.
